Master accordionist, Tony Lovello, now brings you his magical arrangements for the amateur and professional accordionist. Join in on the flash drive fun and experience a new dimension with your Roland Accordion. You can play along or just listen to Tony's exciting arrangements with full orchestra background. Often called the "Liberace" of the Accordion, you too will have a chance to play along and enjoy his style. Arrangements include fancy glissandos, embellishments, 5-finger chords, and his famous Bellow Shake.

Now that you have the USB Flash Drive in hand, you can **choose from over 150 songs** that you can find on Tony's website. You can add more arrangements for only \$5.00 per song via the internet. **Easy to play sheet music is also available for an additional \$7.00 per song, or \$15.00 for the advanced version of sheet music.** For Roland V FR7X, FR3X and FR1X accordions, or computers with USB ports.

How to use this USB Flash Drive—

1. Plug the drive into the accordion USB slot, or any USB computer port.
2. Explore the pre-loaded content, and play!
3. You may add or remove additional song files to the drive.
4. Eject/Remove the drive when you are done and take your files with you.
